

For project 1 - phase 3 you are required to create a web interface that performs the given four queries on the DOCTORAL database created in the previous phase. You can implement the web interface in any programming language you prefer. There are no bonus marks for CSS, however, students are highly encouraged to do so.

Create a web interface and perform the following queries through the interface and also display appropriate results.

1. Insert a new instructor in the database. Your query should insert values for all attributes in the Instructor table. Link the new instructor with an existing course and also add the instructor to a student's committee.
2. Update a GRA student name (simply take a GRA type student name from the user and update it).
3. Display Course Name, Course ID and Section ID for a GTA student.
4. Delete a Self-Support student type who has not passed any milestone yet (to avoid integrity constraint). Your query should also reflect changes in the Phdstudent table.

**Submission Instructions:**

- A demo will be scheduled for this phase. Each team member should be present for the demo.
- **Due Date: April 22, 2020- before 11:59 PM.**
- You should turn in a zipped folder containing all scripts and a readme file. Please do not submit files separately.
- If you are doing the project in a team of two, only one team member should submit the zipped folder.
- Clearly specify team members' names and student ids in the headers of your codes.
- All students are required to include and sign the honor code in a separate file (in the zipped folder). Failing to do so will cost – 20 points.
- Students are required not to share any of the project related documents and solutions with others in any form, even after completion of the project and course. Students may, however, show their projects to the interviewers.
- Late Policy: -5% for each late day.

**HONOR CODE**

**I pledge, on my honor, to uphold UT Arlington's tradition of academic integrity, a tradition that values hard work and honest effort in the pursuit of academic excellence.**

**I promise that I will submit only work that I personally create or that I contribute to group collaborations, and I will appropriately reference any work from other sources. I will follow the highest standards of integrity and uphold the spirit of the Honor Code.**
